

Deb® Universal PROTECT

Universal pre-work skin cream for wet and dry work

Usage: Apply to clean, dry skin before each work period and after washing hands to help protect the skin against contact with water and non-water based contaminants, such as: engine oils, machine oils, cutting oils, lubricating oils, grease, dry powders, solvents, detergents, paints and inks, adhesives and sealants, dilute acids and alkalis.

Method of Use: Apply one dose to back of hands first. Rub hands back to back and then palm to palm, interlocking fingers and including around the finger nails.

Features & Benefits

Ointment Based - Quickly absorbs into the skin and leaves a non-greasy after feel.

Contains Xanthan Gum - A highly effective film forming agent to repel aqueous based substances.

Added Dicaprylyl Carbonate - An excellent 'dry-feel' emollient, helps prevent greasy skin.

Contains Wheatgerm Extracts - A source of vitamin E to help leave the skin soft and supple after use.

Dermatologically Tested - Using the industry recognized '48hr human patch test for primary skin irritation' method.

Proven Barrier Protection - Tested against hydrocarbons and detergents using the recognized *In vivo* Repeat Irritation Test on SLS detergent and diesel.

Contains Kaolin - Fills in skin pores and help prevent ingress by oil based substances.

Added Glycerine - A highly effective humectant, also moisturizes the skin and helps prevent dryness.

Glove Compatible - For use with natural rubber (latex) and nitrile gloves.

Silicone Free Formula - Compatible for use in paintshops.

Mild, Neutral pH Formula - Ensures compatibility with the skin and reduces the risk of any possible irritation.

Fragrance-Free - For maximum user acceptability, both male and female.
