Cleaning & Hygiene Solutions

## KITCHEN

---

**ECOLOGICAL AND  
BIOTECHNOLOGICAL SOLUTION**  
FOR KITCHEN MAINTENANCE  
AND HYGIENE

## POLLET, YOUR PARTNER IN INNOVATIVE PROFESSIONAL CLEANING SOLUTIONS

Pollet is a Belgian family company founded in 1763, which develops, produces, sells, and markets ecological, probiotic, and ultra high-performance professional cleaning solutions.

Our goal is to bring about long-lasting change in the professional cleaning sector. We do this by following a robust social, environmental, and quality policy, as proven by the corporate and environmental certifications we have been awarded.

### IMPROVING HYGIENE THROUGH OUR EXPERTISE IN THE FOOD INDUSTRY

Our production site includes an in-house laboratory for chemical and microbiological work, in addition to housing the latest generation of equipment to enable us to develop top quality products that meet the specific requirements and regulations of the food industry.

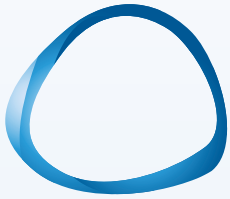

### ALTERNATIVES FOR ALL YOUR REQUIREMENTS

We offer a variety of ranges adapted to all your needs and situations, regardless of your obligations or requirements: the power of chemistry, the respect of the environment or biotechnological innovation.

# MAINTENANCE SOLUTION FOR YOUR KITCHENS: CLEANING, GREASE REMOVAL AND PERSONAL HYGIENE

> DAILY ECOLOGICAL MAINTENANCE .....	4
> PERIODIC MAINTENANCE .....	6
> HAND HYGIENE .....	8
> DISHWASHERS .....	9
> BIOTECHNOLOGICAL SOLUTIONS .....	10
> DOSAGE AND DILUTION EQUIPMENT .....	12
> EXPERTISE AND SUPPORT .....	14

Hygiene is an essential issue in the preparation and serving of food. Whether it be the kitchen, the utensils, the dishes or even your hands, everything has to be perfectly clean to guarantee food safety.

Pollet offers **AN ECOLOGICAL AND BIOTECHNOLOGICAL MAINTENANCE SOLUTION** that is qualitative and adapted to different types of **KITCHENS**: schools, hospitals, retirement homes or other communities, but also hotels and restaurants.

It combines detergents and grease removers for floors and surfaces as well as for equipment with periodic and approved disinfection solutions fit for 'food contact', to meet all your professional cleaning and hygiene needs.

This solution is available in a range of packaging to ensure you get the best cleaning quality, reliability and safety when dosing your products. Our team will help you implement the solution in your establishment.

## DAILY ECOLOGICAL MAINTENANCE OF SURFACES AND EQUIPMENT

**POLGREEN  
GREASE POWER**

**POLGREEN  
WASH UP  
ULTRA WASH UP**

**POLTECH  
MULTI DES\***

**POLGREEN  
MULTISURFACE  
DEGREASER**

12.5  
pH

## POLGREEN Multisurface Degreaser

Strong food degreaser for all types of surface.  
Scent and dye-free.

### DOSAGE

Bucket 1%

Spray 3%

13.5  
pH

## POLGREEN Grease power

Strong degreaser, ready for use, for cleaning  
ovens, grills, hobs and rotisseries.

### DOSAGE

Ready to use

6  
pH

## POLGREEN Wash Up and Ultra Wash Up

Concentrated and ecological detergent for  
the dishes.

### DOSAGE

0.05 to 0.1%  
or 0.1% to 0.2%

9.5  
pH

## POLTECH Multi DES\*

Concentrated disinfectant cleaner for floors and  
surfaces.

Bactericidal EN1276, EN13697;  
Bactericidal against Salmonella,  
Listeria, and Campylobacter EN1276, EN13697;  
Yeasticidal EN1650, EN13697;  
Active against enveloped viruses EN14476.

### DOSAGE

See technical datasheet

\*Only available in xxx.

## DEGREASING AND REMOVING DEPOSITS ON FLOORS AND SURFACES

<1  
pH

### POLTECH DISHCALC

Food descaling and cleaning agent.

#### DOSAGE

5-50%

11  
pH

### POLTECH DELTA

Food degreasing cleaner  
with high degreasing power.

#### DOSAGE

1.25-4%

## CLEANING AND PROTECTING WINDOWS AND STAINLESS STEEL

### POLGREEN SURFGLOSS

Scented ecological cleaner  
for glass and surfaces.

**DOSAGE**  
Ready to use

### POLTECH CLEAN PROTECT

Ready-to-use product specially  
designed to protect and maintain  
polished and synthetic surfaces.

**DOSAGE**  
Ready to use

## DISINFECTION OF EQUIPMENT

### POLTECH ALCOOLSPRAY DES\*

Ready to use alcohol based  
disinfectant for all surfaces.

**DOSAGE**  
Ready to use

Bactericidal EN1276 and EN13697;  
Yeasticidal EN1650 and EN13697;  
Virucidal EN14476.

\*Only available in xxx.

## HAND HYGIENE

In the food industry, good hand hygiene limits the risk of cross contamination and guarantees food safety. Unfortunately, frequent hand disinfection can damage your skin. That's why we've developed disinfectant solutions that **respect the natural pH** of the skin while providing **optimum hand disinfection**.

### STAINLESS STEEL DISTRIBUTOR

Handhygiene Care  
Handhygiene Sanitizing  
Handhygiene Alcool

6  
pH

### POLTECH Handhygiene CARE

Extra-gentle hand soap, specially formulated for frequent use.

#### DOSAGE

Ready to use

6  
pH

### POLTECH Handhygiene SANITIZING\*

Disinfectant soap for hygienic hand washing.

Bactericidal: EN1276, EN13727

Hygienic handwashing: EN1499

Yeasticidal: EN1650, EN13624

Active against enveloped viruses: EN14476

#### DOSAGE

Ready to use

### DISTRIBUTOR

Handhygiene Sanitizing  
Handhygiene Natural  
Handhygiene Alcool

5.5  
pH

### POLTECH Handhygiene NATURAL

Gentle hand soap. pH-neutral for the skin.

#### DOSAGE

Ready to use

### POLTECH Handhygiene ALCOOL\*

Hydroalcoholic gel for rapid, optimal hand disinfection.

Bactericidal: EN1276, EN13727, EN1500

Yeasticidal: EN1650, EN13624

Limited spectrum virucidal: EN14476

#### DOSAGE

Ready to use

\*Only available in xxx.

## DISHWASHERS

≥14  
pH

### POLTECH WASHCLEAN

Alkaline detergent for  
automatic washing of dishes.

**DOSAGE**  
0.04-0.12%

2  
pH

### POLTECH WASHGLANZ WASHGLANZ 40

Highly concentrated additive for rinsing.

**DOSAGE**  
0.2 to 0.3g/L or 0.5 to 0.7g/L

### POLTECH WASHCLEAN CL

Highly chlorinated alkaline detergent  
for automatic washing of dishes.

**DOSAGE**  
0.16-0.5%

≥14  
pH

# BIOTECHNOLOGICAL TREATMENT FOR SURFACES, PIPES AND GREASE TRAPS

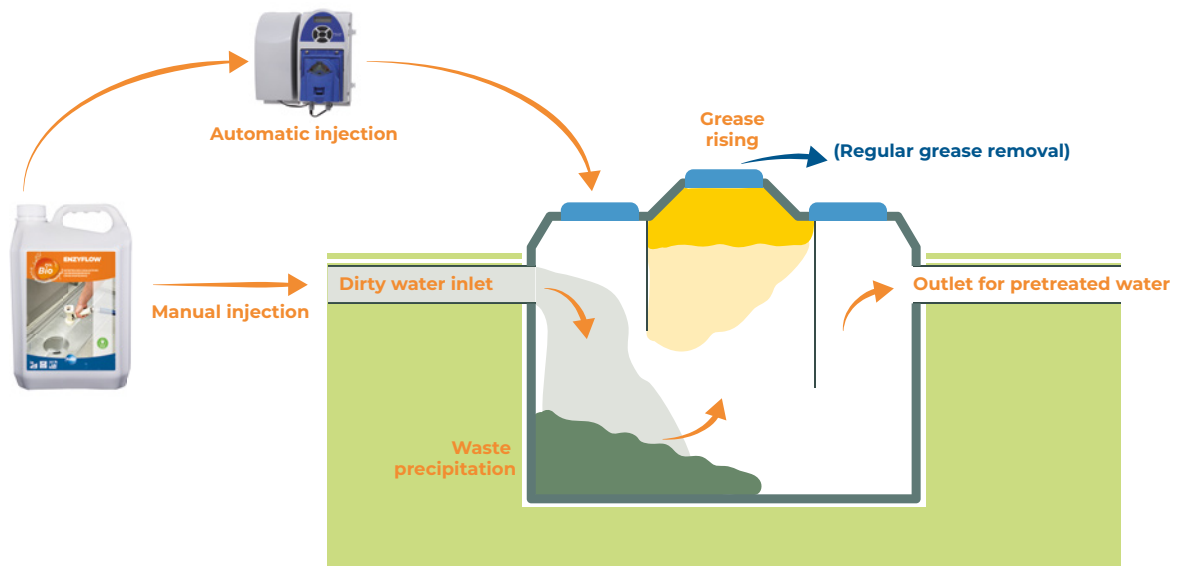

7  
pH

## POLBIO ODOR CONTROL ENZYFLOW

Biotechnological maintenance product  
for pipe and grease trap maintenance.

### DOSAGE

See technical datasheet

**POLBIO ENZYFLOW** is a concentrated biotechnological treatment for pipe and grease trap maintenance.

It:

- Reduces the frequency of emptying grease traps
- Eliminates existing deposits in pipes and bad odours

## POLBIO ODOR CONTROL CANAL CLEAN

Enzymatic maintenance product  
for pipe maintenance.

### DOSAGE

Ready to use

## POLBIO ENZYFLOOR

Enzymatic degreaser without rinsing to  
destroy incrusted grease on floors and reduce  
slipperiness in the food industry.

### DOSAGE

0.5-2%

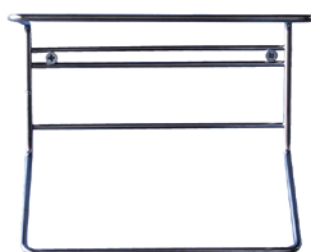

## DOSING SOLUTIONS

Simplify your teams' work with an **adapted dosing solution for cleaning operations**. Combine ecological and high performance cleaning products with reliable and secure systems.

### DOSAGE SYSTEM 1 SPRAY + 1 BUCKET

This dilution centre can dilute one or two spray products, in a bucket, or filling small to medium capacity automatic scrubber-dryers.

Precise dilution of 0.2% to 25%.  
Does not require being plugged in.

### MANUAL DOSAGE OF PRODUCTS IN CONTAINERS

Pumping device to be attached to the neck of 5L or 10L containers.  
30ml per pump.

Wall dosage pump.  
15ml, 22ml or 30ml per pump.

## DOSING SYSTEM AQUAMIX WITH GUN

Hygiene centre with gun for the disinfection and cleaning of sensitive environments.

Can be connected to 1 or 2 products, with rinsing, does not require being plugged in.

## AUTOMATIC DOSAGE\* FOR DISHWASHERS

Dosage system for detergents and rinsing liquids for dishwashers. Programmable automatic dosage.

\*Only available in Belgium.

## EXPERTISE AND TECHNICAL SUPPORT COMPLIANT WITH HACCP STANDARDS

Benefit from the support and expertise of our professional cleaning teams.

### CLEANING PROTOCOLS AND PLANS

Our experts can help you adapt  
your cleaning protocols and plans:

- > Standard or tailored plans
- > By space and surface
- > Adapted to your methods, products and dosages
  - > Frequency monitoring
  - > Indication of inspection points
  - > Reminder of PPE and safety instructions
- > Cleaning monitoring sheets

These cleaning plans are a tool for managing  
cleaning and maintenance operations and  
provide daily support for your operators.

### MEP SHEETS (METHOD/EQUIPMENT/PRODUCT)

You'll benefit from a library of  
method sheets designed to help you  
solve specific cleaning problems:

- > Detailed didactic sheets
- > Effective methods specific to each situation
- > Adapted products and equipment
- > Step-by-step guidance
- > Indication of the equipment, dosage and contact time

In addition to the existing library, we regularly create  
and update MEP sheets based on requests from  
our customers or situations encountered by our  
experts.

## FIELD TRAINING

Our experts will train your teams in the use of our products and cleaning protocols:

- > Field training
- > Learning the basics of cleaning
- > Flexi programme
- > Adapted to your protocols and products
- > Training programme linking theory to practice
- > Help & didactics for specific cleaning

We have a training programme that can be tailored to your specific needs. Our experts will work with you to define and implement your strategy.

## PERSONALISED SUPPORT

In addition to these tools and materials, our experts in the field can provide you with support tailored to your specific requirements and situations. They are trained in cleaning protocols and the use of our products. They can also call on the expertise of our in-house laboratory.

## TRY OUR PRODUCTS FOR FREE

Try out our maintenance solutions at home, with the support of our experts, to see for yourself how effective they are. Samples can be sent to you so you can evaluate our solutions.

### WHY TEST OUR PRODUCTS?

- > **Proven efficacy**  
See the quality of our products for yourself.
- > **Customer satisfaction**  
Your opinion counts! We are here to listen to your feedback.
- > **Sustainability commitment**  
Try products that are respectful of people and the environment.
