

IVR-L 100/18-2 Tc Dp*CUL

The easy-to-use tilting chassis includes a lifting system for the 26.4 gallon collection container and the top inlet ensures long life of the vacuum.

1 Convenient, manual and safe draining of liquids

- Drain hose detaches easily from the container for safe draining of oils and coolants.
- Filling level indicators on drain hose and machine to prevent overfilling of the container.

2 Quick, mechanical and safe draining of liquids

- Infinitely variable barrel pump enables quick draining of liquids from the container.
- Easy and safe emptying even at height differences of up to six metres.

3 Emptying system with a tilting chassis enables safe manual emptying with minimum effort

- Frame system enables ergonomic tilted emptying using the roll-off mechanism.
