

MATERIAL SAFETY DATA SHEET

1. Product and Company Identification

SP295 **Product number**

Product name T1 TFE DRY COATING LUBRICANT AND RELEASE AGENT

Effective date 07-May-2012 Sprayway Inc **Company information**

Addison, IL 60101 United States

General Assistance 1-630-543-7600 Company phone

1-866-836-8855 **Emergency telephone US Emergency telephone outside US** 1-952-852-4646

05 Version #

16-Mar-2012 Supersedes date Lubricant **Product use**

2. Hazards Identification

Aerosol. EXTREMELY FLAMMABLE **Emergency overview**

CONTENTS UNDER PRESSURE. Will be easily ignited by heat, spark or flames. Irritating to respiratory system. Prolonged exposure may cause chronic effects.

Potential health effects

Routes of exposure Inhalation. Ingestion. Skin contact.

Health injuries are not known or expected under normal use. Eye contact may result in **Eyes**

corneal injury.

Prolonged or repeated contact can result in defatting and drying of the skin which may Skin

result in skin irritation and dermatitis (rash).

Intentional misuse by concentrating and inhaling the product can be harmful or fatal. Inhalation

Irritating to respiratory system. Prolonged inhalation may be harmful.

Exposure by ingestion of an aerosol is unlikely. May cause delayed lung damage. Ingestion

Components of the product may be absorbed into the body by ingestion.

Target organs Central nervous system. Lungs.

Chronic effects Unconsciousness. May cause central nervous system disorder (e.g., narcosis involving a

loss of coordination, weakness, fatigue, mental confusion, and blurred vision) and/or damage. May cause delayed lung damage. Prolonged skin contact may defat the skin

and produce dermatitis.

Discomfort in the chest. Narcosis. Cyanosis. Defatting of the skin. Irritation. Signs and symptoms

3. Composition / Information on Ingredients

Components	CAS#	Percent
Propane	74-98-6	20 - 30
n-Butane	106-97-8	20 - 30
Aliphatic Petroleum Solvent	142-82-5	20 - 30
Acetone	67-64-1	10 - 15
Ethyl Alcohol	64-17-5	3 - 5
Non-hazardous and other components below reportable levels		2.5 - 10

4. First Aid Measures

First aid procedures

Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact Eye contact

lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation

develops or persists.

Immediately take off all contaminated clothing. Wash off with warm water and soap. Get Skin contact

medical attention if irritation develops or persists.

Product name: T1 TFE DRY COATING LUBRICANT AND RELEASE AGENT

MSDS US Product #: 295-002 Revision date: 07-MAY-2012 Print date: 07-MAY-2012

Inhalation

Move to fresh air. If breathing is difficult, give oxygen. Call a physician if symptoms

develop or persist.

Ingestion

If material is ingested, immediately contact a poison control center. Have victim rinse mouth thoroughly with water. Do not induce vomiting without advice from poison control center. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Do not use mouth-to-mouth method if victim ingested the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device.

Notes to physician

Symptoms may be delayed.

5. Fire Fighting Measures

Flammable properties

Vapor or gas may spread to distant ignition sources and flash back. Runoff to sewer may cause fire or explosion hazard.

Extinguishing media

Suitable extinguishing media

Protection of firefighters

Specific hazards arising from the chemical

Protective equipment and precautions for firefighters

Alcohol foam. Dry chemical. Carbon dioxide (CO2). Do not use water jet.

Fire may produce irritating, corrosive and/or toxic gases.

In the event of fire and/or explosion do not breathe fumes. Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. If tank, rail car or tank truck is involved in a fire, ISOLATE for 800 meters (1/2 mile) in all directions; also consider initial evacuation for 800 meters (1/2 mile) in all directions. ALWAYS stay away from tanks engulfed in flame. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Withdraw immediately in case of rising sound from venting safety devices or any discoloration of tanks due to fire. Containers should be cooled with water to prevent vapor pressure build up. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn.

6. Accidental Release Measures

Methods for containment

Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Stop the flow of material, if this is without risk. Prevent entry into waterways, sewers, basements or confined areas.

Methods for cleaning up

Should not be released into the environment. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean contaminated surface thoroughly. Avoid dust formation.

7. Handling and Storage

Handling

Pressurized container: Do not pierce or burn, even after use. Do not handle or store near an open flame, heat or other sources of ignition. Do not smoke while using or until sprayed surface is thoroughly dry. Do not use if spray button is missing or defective. Use only with adequate ventilation. Do not get this material in contact with eyes. Do not get this material in contact with skin. Avoid prolonged exposure.

Storage

Level 3 Aerosol.

Contents under pressure. Do not puncture, incinerate or crush. The pressure in sealed containers can increase under the influence of heat. Keep away from heat, sparks, and flame. Avoid exposure to long periods of sunlight. Store in cool place. Keep container tightly closed. Keep in an area equipped with sprinklers. Keep out of the reach of children. Level 3 Aerosol. Do not store, incinerate, or heat this material above 120 degrees Fahrenheit.

Personal protective equipment

Eye / face protection Wear chemical goggles.

Wear appropriate chemical resistant clothing. Protective gloves. Skin protection

If permissible levels are exceeded use NIOSH mechanical filter / organic vapor cartridge Respiratory protection

or an air-supplied respirator.

9. Physical & Chemical Properties

Compressed liquefied gas. **Appearance Boiling point** 69.8 °F (21.1 °C) estimated

Color

0.6264 g/cm3 estimated **Density** 37.9466 kJ/g estimated Flammability (HOC)

Flash back

Flash point -156 °F (-104.4 °C) Propellant

Form Liquid. Aerosol. Freezing point Not available Odor None known. pН Not applicable **Physical state** Liquid.

Pressure 55 - 70 psig @70°F

Solubility Partially

Specific gravity 0.6265 estimated

10. Chemical Stability & Reactivity Information

Chemical stability Risk of ignition.

Conditions to avoid Heat, flames and sparks.

No hazardous decomposition products are known. **Hazardous decomposition products**

11. Toxicological Information

Acute effects Acute LD50: 12472 mg/kg estimated, Rat, Dermal

Acute LC50: 340 mg/l/4h estimated, Rat, Inhalation

MSDS US

n-Butane 106-97-8 Inhalation LC50 Rat 658 mg/L 4 h
Propane 74-98-6 Inhalation LC50 Rat 658 mg/L 4 h

Sensitization Not expected to be hazardous by OSHA criteria.

Carcinogenicity

IARC - Group 1 (Carcinogenic to Humans)

Ethyl Alcohol 64-17-5 Monograph 100E [in preparation] (in alcoholic beverages); Monograph 96 [2010] (in

alcoholic beverages)

Teratogenicity Not expected to be hazardous by OSHA criteria.

12. Ecological Information

Ecotoxicity Components of this product have been identified as having potential environmental

concerns.

LC50 34223 mg/L estimated, Fish, 96.00 Hours, EC50 61368 mg/L estimated, Daphnia, 48.00 Hours, IC50 21293 mg/L estimated, Algae, 72.00 Hours,

13. Disposal Considerations

Waste codes D001: Waste Flammable material with a flash point <140 F

Disposal instructionsContents under pressure. Dispose of this material and its container at hazardous or

special waste collection point. Do not incinerate sealed containers. Do not allow this material to drain into sewers/water supplies. If discarded, this product is considered a RCRA ignitable waste, D001. Dispose in accordance with all applicable regulations.

14. Transport Information

Department of Transportation (DOT) Requirements

Basic shipping requirements:

Proper shipping nameAerosolsHazard class2.1UN numberUN1950

Additional information:

Special provisions153, N82Packaging exceptionsLTD QTYPackaging non bulkNonePackaging bulkNone

Until 12/31/2013, the "Consumer Commodity - ORM-D" marking may still be used in

place of the new limited quantity diamond mark for packages of UN 1950 Aerosols. Limited quantities require the limited quantity diamond mark on cartons after 12/31/13 and may be used now in place of the "Consumer Commodity ORM-D" marking but not

concurrently.
