

WAVE GOOD-BYE TO GERMS!

HandsFresh® Touchless Foam Soap and Sanitizer System

Let's face it; germs are everywhere and one of the best ways to deal with them is frequent hand washing and sanitizing. In fact, these are considered the most important factors in reducing cross-contamination and the spread of germs in the workplace. By using the **HandsFresh®** Touchless Foam Dispenser with advanced sensor technology, you'll stop germs in their tracks. Now with the option of a white or black dispenser, it will compliment any environment and ensure you wave goodbye to germs!

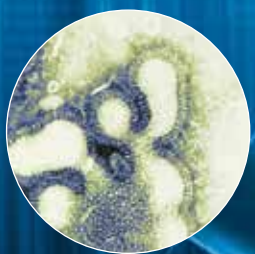

CROSS-CONTAMINATION

Encourages hand washing among staff and guests to reduce risk of cross-contamination.

GREEN TO THE CORE

Box-less soaps, extended battery life and Green Seal®* certified Luxury Foam Soap.

GERMS ARE EVERYWHERE

Proper hand hygiene is considered the primary method of reducing the risk of spreading germs.

RICH FOAM SOAP AND SANITIZER

Available in Luxury and Anti-Bac Foam Soaps, and Alcohol Free Sanitizer formulas with moisturizers to help soothe and maintain healthy skin.

CONTROLLED DISPENSING

Excellent cost-in-use performance with controlled soap dispensing.

NOW
AVAILABLE
IN WHITE!

HandsFresh® Touchless Foam Soap and Sanitizer System

With Kruger's **HandsFresh®** touchless dispenser system, you can wave good-bye to germs and say hello to a fresh approach to hand washing and sanitizing!

**NOW AVAILABLE
IN A
WHITE SYSTEM!**

The System

The attractive **HandsFresh®** touchless soap and sanitizer dispenser, from Kruger, automatically senses a user and dispenses a controlled single amount of **HandsFresh®** foam soap or sanitizer, greatly reducing germ transfer. **HandsFresh®** foam soaps and sanitizers also contain extra mild cleansers and moisturizers to help soothe and soften skin, which helps prevent problems, like skin irritations, in applications where frequent hand washing is required. With **HandsFresh®**, your customers will feel the quality without a single touch.

Economical and Easy to Use

The **HandsFresh®** system offers excellent cost-in-use performance. Large capacity (1000 ml) cartridges deliver up to 2500 hand washes per unit and the **HandsFresh®** system is easy to install and monitor. Featuring LED refill status indicator lights and using up to 33% less soap per wash, compared to other touchless foam soap systems. Now with two alternative colour systems, white or black/grey, to choose from, you will be sure to have the right colour to suit any décor.

The HandsFresh® Environmental Advantage

Now you have an environmentally friendly option for touchless dispensing. **HandsFresh®** Luxury Foam Soaps and Sanitizer is part of the Kruger family of GreenQuality™ products, meaning it meets the strictest environmental standards and reduces its environmental impact versus other leading hand soaps. In addition, Kruger's **HandsFresh®** system uses a box-less refill pouch to reduce packaging waste by up to 80% over standard bag-in-box systems. What's more, the battery life in the **HandsFresh®** dispenser lasts up to six times longer than that of the competition. With the addition of the White **HandsFresh®** dispenser, the elimination of disposing faceplates between colour switches has made it more eco-friendly and environmentally conscious.

FEATURES

BENEFITS
